

Eric Fisher – (unattached) General Chair

Eric has owned an IT services and training business for 17 years. He has knowledge of business practices, staff management, and basic accounting principle. He has served on a swim club board and the Metro board and understands the wet and dry side that comes along with it.

During Eric's time on the Metro board, he has worked to streamline our policies and procedures, worked with other board members to balance the budgets, implement checks and balances, and provide more transparency to the membership.

Eric would like to continue to work with the board and membership in making Metro a top LSC.
