Getting Your Team On Track – Values, Vision, Mission, Objectives, Strategy and Tactics and the Monthly Report System

One of the most common problems that club coaches face, is the failure of coach/board/and parent group to be "on the same page" in terms of what they want to achieve and where they wish to take the club in the future. Nothing can be more frustrating to a coach than a failure to understand that his goals and the goals of others, are not aligned.

This one hour presentation will end that issue for you, if you have it, or prevent it, if it has not yet come up in your club. If you want to "go somewhere" with your team, this is the blueprint on how to get it done, step by systematic step.

Once the VVMOST process is complete, we'll teach you how to use it every month to keep your club and supporters on track to be successful in their efforts.
